THE ASSOCIATED CHAMBERS OF COMMERCE AND INDUSTRY OF INDIA

The Persons with Disabilities (PwDs) constitute a valuable human resource for the nation, and they can lead a better quality of life if they have equal opportunities and effective access to rehabilitation measures. It is a prerequisite to create an environment that provide them equal opportunities for protection of their rights and fullest participation in society.

As per census 2011, in India out of the 121 Cr population, 2.68 Cr are PwDs which is 2.21% of the total population of whom majority are unemployed or underemployed.

Inclusion for PwDs in the workplace is crucial, for their financial independence and dignity. Assistive technologies play a vital role in facilitating their integration in the workforce by providing equitable access to employment opportunities.

Aligned with this goal, 'Vision Viksit Bharat@2047', introduced under the leadership of Prime Minister Narendra Modi, aims to foster opportunities, and empower PwDs to realize their potential and live a productive and dignified life.

This initiative accords with **The Rights of (RPwD) Act, 2016**, which endeavours to ensure their holistic development, in line with the United Nations Convention on the Rights of Persons.

However, various significant challenges exist regarding accessibility, affordability, market influences, and other factors that must be addressed to maximize the potential of all stakeholders.

The integration of Artificial Intelligence (AI) with Information and Communication Technology (ICTs) and Assistive Technologies (AT) holds the promise of fostering a more inclusive ecosystem. These technologies have the potential to mitigate barriers in the workplace and can help the seamless integration of PwDs into mainstream social and economic spheres.

With the objectives of empowering PwDs and creating more inclusive ecosystem through Accessible & Assistive Technology, ASSOCHAM is organising **6th Conference on Empowering Persons with Disabilities through Accessible & Assistive Technology - "Innovation and Sustainable Solutions for Equal Opportunities"** on Tuesday, 9th July 2024 in New Delhi.

ASSOCHAM endeavors to leverage this conference as a platform to unite key stakeholders, highlighting their potential and innovative contributions in alignment with Government initiatives. This conference serves as a catalyst for India's progression towards becoming a Global

KEY HIGHLIGHTS

Impact of Accessible & Assistive Technology in creating equal opportunities

Government's multifaceted role in promoting employment and financial independence through legislation and affirmative action

Addressing issues and challenges to improve accessibility of Assistive Technologies

Benefits of AI-driven assistive technologies that enhance independence and accessibility

Use of technology to empower PwDs and upcoming new technologies

Role of public and private partnership in ensuring inclusive and reliable access to AT

A showcase featuring companies and organizations leading innovation and solutions, presenting the most recent products, services, and applications
