Innovations in Cyber Security for a Safer Digital Infrastructure

Thursday 10th July 2025 | Ahmedabad, Gujarat

Invited
Chief Guest

Shri Harsh Sanghavi
Hon'ble Minister of State for
Home Affairs & Industries
Government of Gujarat

INTRODUCTION

Cyber security is a major concern for everyone for whom data is important. For the corporate world data security is a major concern as every single data is online or on system so the risk of data getting compromised has increased many folds. The crime that involves and uses computer devices and Internet, is known as cybercrime. Cybercrime can be committed against an individual or a group; it can also be committed against government and private organizations. It may be intended to harm someone's reputation, physical harm, or even mental harm.

With growing digitization across the world, businesses are evolving rapidly. Today the IT infrastructure and other digital assets of any business are vital to its survival. However, with growing digitization, the threat of cyber-attacks, malware, unauthorized intrusion, and incidents of data theft are also on the rise. Organizations spend a significant amount to prevent such untoward incidents, protect IT infrastructure from any potential threats, and enhance the security of communication security.

With an objective to spread awareness and to reduce cybercrime cases across the nation, **ASSOCHAM is organizing a “Conference on Cybersecurity & Digital Risk Management” on July - 10, 2025, at 10 AM Onwards in Ahmedabad, Gujarat.** The conference aims to address challenges in cybersecurity by connecting experts of the domain and taking feedback about their experience in dealing with Cyber criminals. The conference will also help in fostering this industry to avail full potential as a driver to defend against Cybercrimes. The conference will highlight how our industry can be more aware of cybercrimes and become more alert with cybersecurity features and will also further motivate them positively to become more adaptive towards safeguarding their operations through cybersecurity and cyber-Laws.
