# 16<sup>th</sup> Capital Market Conference

**“Growth Catalyst for Viksit Bharat @ 2047”**

**Thursday, 22<sup>nd</sup> May 2025 (New Delhi)**

## Overview

Capital markets play a crucial role in the economic development of a country by providing financial resources required for the long-term sustainable development of the economy. Over the years, India's capital market has undergone massive reforms and transformations in terms of standards, systems, operations, regulations and control mechanisms. The market has grown faster, become transparent and developed the investors' faith and trust.

Amongst the markets of the world, the maturity and competence level of India's capital market is one of the spot lights for the domestic as well as international capital inflow. The market capitalisation of Indian companies shows the scale of its institutionalization with a larger number of direct investors and through intermediaries, mutual funds, insurance and even provident funds entering it. We believe that long-term fundamental investors will continue to look at India as a growth market.

As India by 2047 is poised to become a different and New India, speedy economic development and adequate capital formation is necessary, and the capital market has a crucial significance to capital formation. Capital market serves as a crucial link between saving and investment process as it transfers money from savers to entrepreneurial borrowers. The Government of India has taken various steps to deepen reforms in the capital market, including simplification of the IPO process, which allows qualified foreign investors to access the Indian bond market.

Keeping in view the importance of Capital Market in wealth creation and to discuss various issues for making a vibrant Capital Market, ASSOCHAM is organising 16<sup>th</sup> Capital market Conference on May 22, 2025 in New Delhi. The objective of the conference is to discuss a way forward for a vibrant capital market through efficient governance and enhancing market participants. The Conference will have a large participation by stakeholders, regulators, intermediaries and institutional and retail participants.
