Virtual Masterclass

Carbon Accounting: Standards, Reporting & Disclosures

Measure, Manage, and Mitigate the Carbon Footprints

Tuesday, 30 July 2024 | 02:00 PM - 5:30 PM

Background

The growing urgency to address climate change has placed carbon accounting standards, reporting and disclosures at the forefront of global sustainability efforts and has emerged as pivotal components for measuring, managing, and mitigating carbon footprints across various sectors. These practices are essential for providing a transparent and standardized approach for organizations to track their carbon footprint. As nations and organizations strive to meet their climate goals, the need for reliable and transparent carbon accounting systems becomes increasingly critical.

In the face of increasing regulatory demands and stakeholder expectations, it is crucial for organizations to equip, and excel the regulatory & compliance teams, as well as board level professionals about the subject of masterclass. This comprehensive program will cover essential topics such as carbon accounting principles, international standards, and best practices for carbon reporting and disclosures. Participants will gain insights into the latest trends and methodologies in carbon management, enabling them to contribute effectively to sustainability goals and regulatory compliance.

Key Topics

Session 1

Introduction to Carbon Accounting:

- ❖ Key concepts, terminology and Importance of carbon accounting in sustainability and corporate governance

Standards and Frameworks

- ❖ Overview of major international standards (e.g., GHG Protocol, ISO 14064, PAS 2050, CDP, TCFD), Comparison of standards and their applications

Session 2

Carbon Footprint Measurement Techniques

- ❖ Scope 1, Scope 2, and Scope 3 emissions
- ❖ Data collection and inventory management
- ❖ Quantification methods and tools

Session 3

Carbon Reporting and Disclosure

- ❖ Principles of effective carbon reporting
- ❖ Preparing carbon reports: content and structure
- ❖ Verification and assurance
- ❖ Regulatory requirements and voluntary disclosure initiatives

Session 4

Carbon Management and Mitigation

- ❖ Identifying and evaluating carbon reduction opportunities
- ❖ Developing and implementing carbon management strategies
- ❖ Role of renewable energy, energy efficiency, and carbon offsets
- ❖ Case studies and best practices

Session Objectives

- ❖ To provide a comprehensive understanding of carbon accounting and its importance in sustainability.
- ❖ To familiarize participants with international standards and frameworks for carbon measurement and reporting.
- ❖ To explore and disseminate best practices for managing and reducing carbon footprints.
- ❖ To enable participants to apply carbon accounting methodologies in their organizations.
- ❖ To facilitate knowledge sharing and networking among professionals in the field of sustainability.

Participant's Profile

- ❖ **Industry Leaders and Practitioners:** Executives and managers responsible for CSR, sustainability and environmental performance within their organizations.
- ❖ **Policymakers and Regulators:** Government officials and regulators involved in developing and enforcing climate-related policies.
- ❖ **NGOs and Advocacy Groups:** Organizations advocating for climate action and environmental sustainability.
- ❖ **Academics and Researchers:** Scholars conducting research on carbon accounting, standards, and reporting.
- ❖ **Investors and Financial Institutions:** Stakeholders interested in the implications of carbon reporting on investment decisions.
- ❖ **Members of Professional Institutions:** ICSI, ICAI, ICMAI

Registration Fee

Delegate registration fee (Per participant)	Discount	Inclusions and benefits
Rs. 2,500 (Inclusive of GST)	10% on Registration of two or more delegates	Certificate of participation

How to Register

Interested participants are invited to enroll for the virtual masterclass by registering on the below link:

<https://forms.office.com/r/SrGjRccc1t>

or by scanning of the QR code.
