**Reinventing and scaling up MSME in  
Maharashtra: Navigating towards Viksit Bharat**

**Thursday | June 27, 2024 | Mumbai**

# Overview

The Indian Micro, Small and Medium Enterprises (MSME) sector, with more than 6.30 crore enterprises, has emerged as a highly vibrant and dynamic sector of the economy. It is a major contributor to the socio-economic development of the country and has gained importance due to its contribution to Gross Domestic Product (GDP) of the country, fostering entrepreneurship and generating self-employment opportunities at a comparatively lower capital cost.

Maharashtra is home to several MSME clusters which are renowned for their wide-ranging industries operating across manufacturing, IT services, textiles and engineering sectors. It also has the maximum number of registered MSME in the Udyam portal with nearly 42.76 lakh registrations.

Maharashtra state government is actively engaged in bolstering the MSME sector by implementing a myriad of policies and schemes aimed at its promotion and development, such as providing financial assistance, training, and marketing support. Some of the measures include providing financial incentives in the form of subsidies on SGST payments, power subsidies, interest subsidies, stamp duty and electricity duty exemptions. These schemes and incentives intend to provide a stimulus to the growth and development of MSME in the state and align with the overall vision of making Maharashtra the most favoured investment destination in India, thereby laying the foundation of "Viksit Bharat".

On the occasion of World MSME Day, ASSOCHAM is organizing "**MahaMSMErashtra Empowerment Summit & Awards 2024**" with the underlying theme "***Reinventing and scaling up MSME in Maharashtra: Navigating towards Viksit Bharat***" on **Thursday, 27 June 2024 at Mumbai, Maharashtra**.

The Summit would convene experts from the Government, industry, industry associations, think tanks and academia. The discussion would focus on the key issues faced by MSME sector, including financing, technology adoption, incorporation of sustainable business practices, exploration of emerging opportunities for MSME, and providing recommendations to address the existing challenges through the establishment of an enabling policy ecosystem that fosters the overall growth of the sector.
