## Overview

We are delighted to inform you that ASSOCHAM is organizing its 11<sup>th</sup> Annual Conclave on Non-Banking Financial Companies & Green Financing under the theme “Bouncing Back to Calibrated Growth” at Mumbai.

The Indian financial lending landscape is evolving rapidly with Non-Banking Finance Companies (NBFCs) playing a crucial role in expanding credit accessibility. Simultaneously, the push for sustainability has driven the adoption of green financing as a key component in financial ecosystems. This transformation is reshaping traditional lending models, fostering inclusive growth, and promoting environmentally responsible investments

NBFCs and Green Financing are transforming financial lending by fostering financial inclusion and sustainability. By leveraging technology, regulatory support, and innovative financial models, they are paving the way for a more resilient and environmentally conscious financial ecosystem. The synergy between NBFCs and green finance holds immense potential to drive economic growth while addressing global sustainability challenges.
