**Contract Currency:** Estimated Investment MXN

Mexican Pesos MXN

**Estimated Investment USD**

\$ 7,462,710,506

Exchange rate (USD/MXN) used by the  
Ministry of Finance for the economic plan  
2025 \$ 18.5

#### DESCRIPTION

The project consists of the construction of a 395.77 km railway to provide passenger transportation service, with the following characteristics:

- Where possible, existing right-of-way is used for dedicated passenger routes in Saltillo, continues through Arteaga, Santa Catarina, Monterrey, San Nicolás de los Garza, Salinas Victoria, Villaldama, Lampazos de Naranjo, Anáhuac and Nuevo Laredo.
- Section of double or single track (with extended sides) without electrification.
- Typology of viaducts and embankments to overcome existing infrastructure obstacles, complex orography, crossings with ravines and mountainous areas (resolved with bridges, viaducts and tunnels).
- Design speed 177-200 km/hr.

\*The information is preliminary and is subject to constant review and updating as the project progresses.

\*\*Definition of stops and stations based on demand studies.

**Contract Scope:** Construction

**Type of Project:**

**Selection Process:** International Open Tender

**Term:**

**Type of Contract:** Public Works
