Agriculture, an integral part of our culture decides the direction of the country in terms of socio-economic development. Today, we have moved from traditional farming to use of automated precision methods to speed up tasks at hand. Technology has taken over our lives and farming is no exception, adopting changes which are efficient, accurate and productive, into its culture. Backed up by a young scientific community teaming with innovators and entrepreneurs, encouraged by the Government's proactive policies to enable agriculture as a primary contributor to GDP of our country, the field of agriculture has never shown more promise.

Despite the considerable progress made, agriculture in India still has a long way to go when it comes to global benchmarks. To attain global standards, there is need for modernization of farms, adoption of latest technologies along with substantive investment in irrigation, seeds and fertilizers and new technology coupled with a shift into high-value commodities such as horticulture, poultry and dairying. It becomes increasingly

important to drive necessary and timely interventions at Industry, Institution, FPOs and individual farmer level for transformation of Agriculture sector.

Telangana state has considered agriculture as its primary goal to improve farmer community wellness, educate on latest technical farming knowledge, train framers to boost the agricultural production and productivity. In three major zones namely, Northern Zone, Central Zone and Southern Zone. Crops that are grown in Telangana are Rice, Maize/ Corn, Red Gram, Green Gram, Jowar, Sesame, Castor, Cotton, Groundnut, Soyabean, Black Gram to mention a few.

Against this background, ASSOCHAM in association with The Professor Jayashankar Telangana State Agricultural University and Department of Agriculture, Government of Telangana are organising TS-Agritech 2023, a Conference and Exhibition on Latest Agriculture Technologies on 9 - 11 June 2023 at Regional Agricultural Research Station (RARS), Warangal, Telangana

The objective of this is to bring together various stakeholders in the sector on a single platform for focused interactions on the latest developments and practices taking place globally; to foster cross pollination of new ideas, technologies and methodologies. The conference will also link technology holders and the user industry, with a special focus on farmer-expert interface. The proposed expo aims to create a forum to showcase products available to increase farm yields and provide an excellent opportunity to reach the multitude of responsive farmers by showcasing the latest developments in all segments of Agriculture.

Big Changes

are coming in Agriculture
Farmers need constant
update to successfully
ride these
transformations.

TS-Agritech 2023 Highlights

- 100+ Exhibitors
- 30,000+ Visitors
- Latest Farming Technologies
- New Business Opportunities
- Ideal Networking Platform
- 3 days expo on Agriculture, Horticulture & Fisheries Technologies
- Golden opportunity for related segments to introduce themselves and their products, establish their brands and broaden their network
- Agri equipments & machinery live demo
- Farmer Meets
- Opportunity for the companies to launch and showcase farm products
- Opportunity to establish dealership and empanel with the State Government to be part of the support system being provide to the Farmers
- StartUp and Innovation Pavilion

Exhibitor Profile

- Agriculture Machinery & Tools
- Aquaculture
- Artificial Intelligence & Precision Farming
- Banks & Insurance Services
- Climate Control & Automation Equipment
- Cold Rooms & Refrigeration Appliances
- Dairy, Poultry and Livestock
- Dealers & Distributors
- Drones
- Farm Management Equipment
- Farming Consultants & Certification Agencies
- Fertilizers, Pesticides & Insecticides companies
- Food Processing Machinery
- FPO Organizations
- Grading & Sorting Machinery
- Greenhouses & Polyhouses
- Horticulture, Floriculture & Nursery Industry
- Irrigation and Water Technologies
- New Varieties, Herbal & Medicinal Plants
- Organic Agriculture
- Packaging Machinery
- Plant Breeding & Biotechnology
- R&D Institutions
- Remote Sensing
- Seed Companies
- Soil Testing Labs
- Start-ups
- State & Central Government Departments / Agencies
- Supply Chains and Logistics
- Tractors / Harvesters / Rotavators
- Trade Magazines
- Traders & Exporters
- Vertical Farming & Hydroponics
- Warehousing & Cold Storage Equipment

About ASSOCHAM

The Associated Chambers of Commerce & Industry of India (ASSOCHAM) is the country's oldest apex chamber initiated its endeavour of value creation for the industry in 1920. Built on the vision of nation-building, ASSOCHAM has been a part of the economic history of India. It brings in actionable insights to strengthen the Indian ecosystem, leveraging its network of more than 4,50,000 members, of which MSMEs represent a large segment. With a strong presence in states, and key cities globally, ASSOCHAM also has more than 400 associations, federations and regional chambers in its fold.

Aligned with the vision of creating a New India, ASSOCHAM works as a conduit between the industry and the Government. The Chamber is an agile and forward-looking institution, leading various initiatives to enhance the global competitiveness of the Indian industry, while strengthening the domestic ecosystem.

With more than 100 national and regional sector councils, ASSOCHAM is an impactful representative of the Indian industry. These Councils are led by well-known industry leaders, academicians, economists and independent professionals. The Chamber focuses on aligning critical needs and interests of the industry with the growth aspirations of the nation.

ASSOCHAM is driving four strategic priorities - Sustainability, Empowerment, Entrepreneurship and Digitisation. The Chamber believes that affirmative action in these areas would help drive an inclusive and sustainable socio-economic growth for the country.

ASSOCHAM is working hand in hand with the government, regulators, and national and international think tanks to contribute to the policy making process and share vital feedback on implementation of decisions of far-reaching consequences. In line with its focus on being future-ready, the Chamber is building a strong network of knowledge architects. Thus, ASSOCHAM is all set to redefine the dynamics of growth and development in the technology-driven 'Knowledge-Based Economy'. The Chamber aims to empower stakeholders in the Indian economy by inculcating knowledge that will be the catalyst of growth in the dynamic global environment.

The Chamber also supports civil society through citizenship programmes, to drive inclusive development. ASSOCHAM's member network leads initiatives in various segments such as empowerment, healthcare, education and skilling, hygiene, affirmative action, road safety, livelihood, life skills, sustainability, to name a few.
